

Proceedings of the 2nd Stevia Symposium 2008 organised by EUSTAS

Steviol glycosides: technical and pharmacological aspects

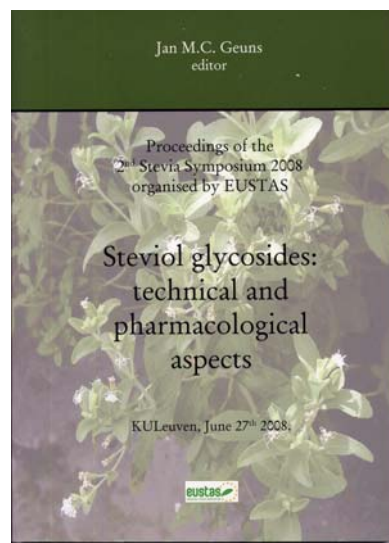

196 Seiten / ISBN 9789074253-031 / EAN 9789074253031

Preis: 100 Euro incl. weltweiter Versand und Steuer

Auslieferung:

EUPRINT bvba
Parkbosstraat 3
B-3001 Heverlee
Belgien

Telefon: 0032-1640 40 49
Fax: 0032-1640 70 49

Contents

| | |
|--|-----|
| 1. Preparation of steviol by soil bacteria. Boudewijn Meesschaert. | 5 |
| 2. Preparation of pure standards of steviol glycosides. Identification of steviol glycosides by LC-MS and NMR. Tom Struyf, Paola Chandia, Wim De Borggraeve, Wim Dehaen, Jan M.C. Geuns. | 29 |
| 3. Analysis of the main <i>Stevia rebaudiana</i> sweeteners and their aglycone Steviol by a validated LC-DAD-ESI-MS method. Martina Scaglianti, C. Gardana, P.G. Pietta and G.M. Ricchiuto. | 45 |
| 4. Analysis of Steviol glycosides: validation of methods. Jan M.C. Geuns. | 59 |
| 5. Stability studies of steviol glycosides. Ursula Woelwer-Rieck, Menelaos Papagiannopoulos. | 79 |
| 6. Membrane filtration techniques in the purification of steviol glycosides. Bart Van der Bruggen. | 91 |
| 7. Possibilities for Growth of <i>Stevia</i> in European Temperate Zones. Christa Lankes and Ralph Pude. | 103 |
| 8. <i>Stevia rebaudiana</i> (Bertoni) vs. Tobacco spp. Sonja Vanhove-Deneve. | 117 |
| 9. Early-life-stage analysis of stevia metabolites in zebrafish: Stevioside, rebaudioside A and steviol glucuronide are non-toxic, and steviol is anti-angiogenic. Alex Crawford. | 139 |
| 10. Stevia components improve glucose homeostasis in Type 2 Diabetes? - A new promising drug. Per Jeppesen. | 151 |
| 11. Anti-inflammatory and immunomodulatory activity of Stevioside and steviol. Chaiwat Boonkaewwan. | 181 |
